

Nick Beeler to expand ACI Spokane Branch's growth

We are excited to announce Nick Beeler has joined ACI Mechanical & HVAC Sales at the Spokane Branch as the newest Sales Engineer. His certification in LEED AP Building Design and Construction will be beneficial to ACI and the customers Nick is taking on.

Nick has 4 years' experience as a Mechanical Engineer in the Spokane Washington market. Nick Beeler graduated Eastern Washington University where he earned his BSME in Mechanical Engineering. His past experiences allowed him to grow as a sales engineer and gain a valuable understanding in this industry. Over the years Nick has collaborated daily with teams of engineers to design and assemble fully automated stacking systems while also improving processes within manufacturing.

"Nick Beeler will be a great addition to the Spokane Branch due to his time as a Mechanical Engineer. We look forward to working with him and growing the Spokane Branch." Said the Spokane Branch Manager and Engineer, Andrew Asper.

As the new Sales Engineer Nick will provide leadership skills, collaboration, utilizing software to create drawings, knowledge on business development, and employ his years of mechanical engineering knowledge to help drive sales for ACI Mechanical & HVAC Sales.
