

Daniel McCoy Joins ACI Mechanical & HVAC Sales as an Indoor Air Quality Sales Engineer

Seattle, WA – October 18, 2023 – ACI Mechanical & HVAC Sales is delighted to introduce Daniel McCoy as an Indoor Air Quality Sales Representative, adding substantial momentum to our commercial sales efforts in the Pacific Northwest. This strategic move highlights ACI's commitment to expanding its presence in the region and signifies the addition of Jordan's extensive experience to accelerate these efforts.

"We are excited to welcome Daniel to our team. As an experienced sales specialist with a passion for Indoor Air Quality, he will be instrumental in driving our growth in this sector," said Keith Glasch, President, and Principal at ACI.

"I am genuinely thankful for the opportunity to take on the role in IAQ Sales. This new chapter in my career is a testament to the trust placed in me, and I am excited to contribute to the success and growth of the company," said Daniel McCoy. "I am grateful for the support and guidance provided thus far, and I am looking forward to embracing the challenges and opportunities that come with this new position. I am committed to bringing my best to the role and making a positive impact within the industry."

With a solid decade of experience in the HVAC industry, Daniel has primarily served as a project manager and sales specialist. His extensive background and passion for Indoor Air Quality make him an invaluable addition to our team. Daniel's expertise will be pivotal as we expand our business, particularly in the realm of Indoor Air Quality, and with the products we offer through brands such as GPS, Camfil, Koch Filters, and Sterile Air. His dedication to enhancing air quality aligns seamlessly with our mission, and we are confident that Daniel will play a significant role in driving our growth and innovation in this specialized sector.

About ACI Mechanical and HVAC Sales:

Headquartered in Seattle, Washington, ACI Mechanical & HVAC Sales is the Pacific Northwest's premier vendor for commercial HVAC applications. The company collaborates with consulting engineers, contractors, and their customers to deliver exceptional solutions for various sectors, including education, data centers, commercial office buildings, healthcare, and industrial facilities.
